## AXS to Ring the Nasdaq Opening Bell to Celebrate Historic Launch of First-Ever U.S. Single Stock ETFs

*Initial suite of eight funds went live on July 14, 2022, and were the first to provide leveraged long or inverse exposure to the daily performance of some of the most actively traded stocks, including Tesla, NVIDIA, and PayPal*

**NEW YORK, April 14, 2023** – [AXS Investments](#), a leading asset manager providing access to alternative investments for growth, income and diversification, will ring the Opening Bell at the Nasdaq MarketSite in Times Square on Monday, April 17th to celebrate the success of the firm's first-of-its-kind family of single stock ETFs.

Launched July 14, 2022, on Nasdaq, this initial suite of AXS single stock ETFs provides leveraged long ("Bull") and inverse short ("Bear") daily exposure to:

- Tesla: [AXS TSLA Bear Daily ETF \(TSLQ\)](#)
- NVIDIA: [AXS 1.25X NVDA Bear Daily ETF \(NVDS\)](#)
- PayPal: [AXS 1.5X PYPL Bull Daily ETF \(PYPT\)](#) and [AXS 1.5X PYPL Bear Daily ETF \(PYPS\)](#)
- Nike: [AXS 2X NKE Bull Daily ETF \(NKEL\)](#) and [AXS 2X Bear Daily ETF \(NKEQ\)](#)
- Pfizer: [AXS 2X PFE Bull Daily ETF \(PFEL\)](#) and [AXS 2X PFE Bear Daily ETF \(PFES\)](#)

In less than seven months of trading, this suite of funds gathered more than \$200 million in assets, led by TSLQ, [which soared past the \\$100 million mark in under six months](#). The franchise has also been bolstered by NVDS, which recently eclipsed the \$100 million threshold on the heels of renewed investor interest in trading semiconductor stocks that are linked to the AI-development boom.

"We have been thrilled with the response that our single stock ETFs have received from the trading community, and the momentum behind these solutions is only gathering steam as we head further into 2023," said Greg Bassuk, Chief Executive Officer of AXS Investments. "AXS equals Access, and our goal in launching this family was to provide sophisticated investors with access to unique short-term trading vehicles that would allow them to express high conviction views on specific industry leaders. We've been able to do exactly that, and it is an honor to be marking the success of these ETFs by ringing the Opening Bell at the Nasdaq."

The launch of the single stock ETFs is one of several major recent accomplishments and milestones by the AXS Investments, a list that also includes:

- The launch of the [AXS Astoria Inflation Sensitive ETF \(PPI\)](#), the first ETF to provide exposure to investments that both mitigate the devaluation effects of inflation and those that have the potential to deliver growth in price-rising environments
- The acquisition of the [AXS Short Innovation Daily ETF \(SARK\)](#) and the launch of the [AXS 2X Innovation ETF \(TARK\)](#), allowing investors to express their views on both sides of the "innovation trade," and
- The pending acquisitions of both the ACM mutual funds and the HYLD ETF, which further expand the AXS Investments' family of differentiated liquid alternative investment investments.

AXS also last week announced a major addition to its senior leadership team with [the hiring of industry veteran Brett Wright](#) as the firm's new Head of Distribution.

## IMPORTANT RISK INFORMATION

There are risks involved with investing including the possible loss of principal. Past performance does not guarantee future results.

The fund pursues daily leveraged investment objectives, which means that the funds are riskier than alternatives that do not use leverage because the funds magnify the performance of their underlying securities. The volatility of the underlying securities may affect fund returns as much as, or more than, the return of the underlying securities.

AXS leveraged and inverse ETFs are not suitable for all investors. The Funds are designed to be utilized only by knowledgeable investors who understand the potential consequences of seeking daily leveraged and inverse leveraged investment results, understand the risks associated with the use of leverage, and are willing to monitor their portfolios frequently.

The Funds are not intended to be used by, and are not appropriate for, investors who do not intend to actively monitor and manage their portfolios. For periods longer than a single day, the Funds will lose money if the underlying stock's performance is flat, and it is possible that the Fund will lose money even if the underlying stock's performance decreases over a period longer than a single day. An investor could lose the full principal value of his/her investment within a single day.

Shares are bought and sold at market price (not NAV) and are not individually redeemed from the ETF. There can be no guarantee that an active trading market for ETF shares will develop or be maintained, or that their listing will continue or remain unchanged. Buying or selling ETF shares on an exchange may require the payment of brokerage commissions and frequent trading may incur brokerage costs that detract significantly from investment returns.

*Investors should carefully consider the investment objectives, risks, charges and expenses of any AXS Funds before investing. To obtain a prospectus containing this and other important information, please click [here](#) to view or download a prospectus online or call 833.AXS.ALTS (833.297.2587). Read the fund's prospectus carefully before you invest.*
