Note 1 - Organization

AXS Dynamic Opportunity Fund (the "Dynamic Opportunity Fund") and AXS Tactical Income Fund (the "Tactical Income Fund") (each a "Fund" and collectively the "Funds") are organized as a series of Investment Managers Series Trust II, a Delaware statutory trust (the "Trust") which is registered as an open-end management investment company under the Investment Company Act of 1940, as amended (the "1940 Act"). Both Funds are diversified funds.

The Dynamic Opportunity Fund's investment objective is to seek long-term capital appreciation with a short-term focus on capital preservation

The Dynamic Opportunity Fund commenced investment operations on May 15, 2023 with Class A and Class I shares. Prior to that date, the Dynamic Opportunity Fund acquired the assets and assumed the liabilities of the ACM Dynamic Opportunity Fund (the "AXS Dynamic Opportunity Predecessor Fund"), a series of Northern Lights Fund Trust III, which offered two classes of shares, Class A and Class I shares, in a tax-free reorganization as set out in the Agreement and Plan of Reorganization. The proposed Plan of Reorganization was approved by the Trust's Board on February 2, 2023, by the Board of Northern Lights Fund Trust III on January 23, 2023, and by beneficial owners of the AXS Dynamic Opportunity Predecessor Fund on May 10, 2023. The tax-free reorganization was accomplished on May 12, 2023. As a result of the reorganization, the Dynamic Opportunity Fund assumed the performance and accounting history of the AXS Dynamic Opportunity Predecessor Fund. Financial information included for the dates prior to the reorganization is that of the AXS Dynamic Opportunity Predecessor Fund.

The reorganization was accomplished by the following tax-free exchange in which each shareholder of the AXS Dynamic Opportunity Predecessor Fund received the same aggregate share net asset value in the corresponding classes as noted below:

	Shares Issued	Net Assets	
Class A	116,630	\$ 1,881,167	
Class I	3,939,339	64,761,951	

The net unrealized appreciation of investments transferred was \$7,284,210 as of the date of the acquisition.

The Tactical Income Fund's investment objective is to seek to generate income, with capital preservation as a secondary objective.

The Tactical Income Fund commenced investment operations on May 15, 2023 with Class A and Class I shares. Prior to that date, the Tactical Income Fund acquired the assets and assumed the liabilities of the ACM Tactical Income Fund (the "AXS Tactical Income Predecessor Fund"), a series of Northern Lights Fund Trust III, which offered two classes of shares, Class A and Class I shares, in a tax-free reorganization as set out in the Agreement and Plan of Reorganization. The proposed Plan of Reorganization was approved by the Trust's Board on February 2, 2023, by the Board of Northern Lights Fund Trust III on January 23, 2023, and by beneficial owners of the AXS Tactical Income Predecessor Fund on May 5, 2023. The tax-free reorganization was accomplished on May 12, 2023. As a result of the reorganization, the Tactical Income Fund assumed the performance and accounting history of the AXS Tactical Income Predecessor Fund. Financial information included for the dates prior to the reorganization is that of the AXS Tactical Income Predecessor Fund.

The reorganization was accomplished by the following tax-free exchange in which each shareholder of the AXS Tactical Income Predecessor Fund received the same aggregate share net asset value in the corresponding classes as noted below:

	Shares Issued	_	Net Assets	
Class A	236,949	\$	2,120,926	
Class I	4,507,040		40,364,152	

The net unrealized appreciation of investments transferred was \$113,761 as of the date of the acquisition.

The shares of each class of each Fund represent an interest in the same portfolio of investments of each particular Fund and have equal rights as to voting, redemptions, dividends and liquidation, subject to the approval of the Trustees. Income, expenses (other than expenses attributable to a specific class) and realized and unrealized gains and losses on investments are allocated to each class of shares in proportion to their relative net assets. Shareholders of a class that bears distribution and service expenses under the terms of a distribution plan have exclusive voting rights to that distribution plan.

Each Fund is an investment company and accordingly follows the investment company accounting and reporting guidance of the Financial Accounting Standards Board (FASB) Accounting Standard Codification Topic 946 "Financial Services—Investment Companies."

Note 2 – Accounting Policies

The following is a summary of the significant accounting policies consistently followed by the Funds in the preparation of their financial statements. The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America ("GAAP") requires management to make estimates and assumptions that affect the reported amounts and disclosures in the financial statements. Actual results could differ from these estimates.

(a) Valuation of Investments

The Funds value equity securities at the last reported sale price on the principal exchange or in the principal over the counter ("OTC") market in which such securities are traded, as of the close of regular trading on the NYSE on the day the securities are being valued or, if the last-quoted sales price is not readily available, the securities will be valued at the last bid or the mean between the last available bid and ask price. Securities traded on the NASDAQ are valued at the NASDAQ Official Closing Price ("NOCP"). Investments in open-end investment companies are valued at the daily closing net asset value of the respective investment company. Debt securities are valued by utilizing a price supplied by independent pricing service providers. The independent pricing service providers may use various valuation methodologies including matrix pricing and other analytical pricing models as well as market transactions and dealer quotations. These models generally consider such factors as yields or prices of bonds of comparable quality, type of issue, coupon, maturity, ratings and general market conditions. If a price is not readily available for a portfolio security, the security will be valued at fair value (the amount which the Funds might reasonably expect to receive for the security upon its current sale). The Board of Trustees has designated the Advisor as the Funds' valuation designee (the "Valuation Designee") to make all fair value determinations with respect to the Funds' portfolio investments, subject to the Board's oversight. As the Valuation Designee, the Advisor has adopted and implemented policies and procedures to be followed when the Funds must utilize fair value pricing. Prior to September 8, 2022, securities were valued at fair value as determined in good faith by the Fund's advisor, subject to review and approval by the Valuation Committee, pursuant to procedures adopted by the Board of Trustees. The actions of the Valuation Committee were subsequently reviewed by the Board at its next regularly scheduled board meeting. The Valuation Committee met as needed. The Valuation Committee was comprised of all the Trustees, but action may had been taken by any one of the Trustees.

(b) Foreign Currency Translation

The Funds' records are maintained in U.S. dollars. The value of securities, currencies and other assets and liabilities denominated in currencies other than U.S. dollars are translated into U.S. dollars based upon foreign exchange rates prevailing at the end of the reporting period. The currencies are translated into U.S. dollars by using the exchange rates quoted as of 4:00 PM Eastern Standard Time. Purchases and sales of investment securities, income and expenses are translated on the respective dates of such transactions.

The Funds do not isolate that portion of their net realized and unrealized gains and losses on investments resulting from changes in foreign exchange rates from the impact arising from changes in market prices. Such fluctuations are included with net realized and unrealized gain or loss from investments and foreign currency.

Net realized foreign currency transaction gains and losses arise from sales of foreign currencies, currency gains or losses realized between the trade and settlement dates on securities transactions, and the differences between the amounts of dividends, interest, and foreign withholding taxes recorded on the Funds' books and the U.S. dollar equivalent of the amounts actually received or paid. Net unrealized foreign currency translation gains and losses arise from changes in the value of assets and liabilities, other than investments in securities, resulting from changes in the exchange rates.

(c) Exchange-Traded Funds ("ETFs")

ETFs typically trade on securities exchanges and their shares may, at times, trade at a premium or discount to their net asset values. In addition, an ETF may not replicate exactly the performance of the benchmark index it seeks to track for a number of reasons, including transaction costs incurred by the ETF, the temporary unavailability of certain index securities in the secondary market or discrepancies between the ETF and the index with respect to the weighting of securities or the number of securities held. Investing in ETFs, which are investment companies, may involve duplication of advisory fees and certain other expenses. As a result, Fund shareholders indirectly bear their proportionate share of these incurred expenses. Therefore, the cost of investing in the Funds will be higher than the cost of investing directly in ETFs and may be higher than other mutual funds that invest directly in securities.

Each ETF in which the Funds invest is subject to specific risks, depending on the nature of the ETF. Each ETF is subject to the risks associated with direct ownership of the securities comprising the index on which the ETF is based. These risks could include liquidity risk, sector risk, and risks associated with fixed-income securities.

(d) Short Sales

Short sales are transactions in which the Funds sell a security they do not own in anticipation of a decline in the value of that security. To complete such a transaction, the Funds must borrow the security to make delivery to the buyer. The Funds then are obligated to replace the security borrowed by purchasing the security at market price at the time of replacement. The price at such time may be more or less than the price at which the security was sold by the Funds. When a security is sold short, a decrease in the value of the security will be recognized as a gain and an increase in the value of the security will be recognized as a loss, which is potentially limitless. Until the security is replaced, the Funds are required to pay the lender amounts equal to dividend or interest that accrue during the period of the loan which is recorded as an expense. To borrow the security, the Funds also may be required to pay a premium or an interest fee, which are recorded as interest expense. Cash or securities are segregated for the broker to meet the necessary margin requirements. The Funds are subject to the risk that they may not always be able to close out a short position at a particular time or at an acceptable price.

(e) Options

The Funds may write or purchase options contracts primarily to generate gains from option premiums or to reduce overall portfolio risk. When the Fund writes or purchases an option, an amount equal to the premium received or paid by the Fund is recorded as a liability or an asset and is subsequently adjusted to the current market value of the option written or purchased. Premiums received or paid from writing or purchasing options which expire unexercised are treated by the Fund on the expiration date as realized gains or losses. The difference between the premium and the amount paid or received on effecting a closing purchase or sale transaction, including brokerage commissions, is also treated as a realized gain or loss. If an option is exercised, the premium paid or received is added to the cost of the purchase or proceeds from the sale in determining whether the Fund has realized a gain or a loss on investment transactions. The Fund, as a writer of an option, may have no control over whether the underlying securities may be sold (call) or purchased (put) and as a result bears the market risk of an unfavorable change in the price of the security underlying the written option.

(f) Investment Transactions, Investment Income and Expenses

Investment transactions are accounted for on the trade date. Realized gains and losses on investments are determined on the identified cost basis. Dividend income is recorded net of applicable withholding taxes on the exdividend date and interest income is recorded on an accrual basis. Withholding taxes on foreign dividends, if applicable, are paid (a portion of which may be reclaimable) or provided for in accordance with the applicable country's tax rules and rates and are disclosed in the Statements of Operations. Withholding tax reclaims are filed in certain countries to recover a portion of the amounts previously withheld. The Funds record a reclaim receivable based on a number of factors, including a jurisdiction's legal obligation to pay reclaims as well as payment history and market convention. Income and expenses of the Funds are allocated on a pro rata basis to each class of shares relative net assets, except for distribution and service fees which are unique to each class of shares. Expenses incurred by the Trust with respect to more than one fund are allocated in proportion to the net assets of each fund except where allocation of direct expenses to each fund or an alternative allocation method can be more appropriately made.

(g) Federal Income Tax

The Funds intend to comply with the requirements of Subchapter M of the Internal Revenue Code applicable to regulated investment companies and to distribute substantially all of their net investment income and any net realized gains to their shareholders. Therefore, no provision is made for federal income or excise taxes. Due to the timing of dividend distributions and the differences in accounting for income and realized gains and losses for financial statement and federal income tax purposes, the fiscal year in which amounts are distributed may differ from the year in which the income and realized gains and losses are recorded by the Funds.

Accounting for Uncertainty in Income Taxes (the "Income Tax Statement") requires an evaluation of tax positions taken (or expected to be taken) in the course of preparing a Fund's tax returns to determine whether these positions meet a "more-likely-than-not" standard that, based on the technical merits, have a more than fifty percent likelihood of being sustained by a taxing authority upon examination. A tax position that meets the "more-likely-than-not" recognition threshold is measured to determine the amount of benefit to recognize in the financial statements. The Funds recognize interest and penalties, if any, related to unrecognized tax benefits as income tax expense in the Statements of Operations.

The Income Tax Statement requires management of the Funds to analyze tax positions taken in the prior three open tax years, if any, and tax positions expected to be taken in the Funds' current tax year, as defined by the IRS statute of limitations for all major jurisdictions, including federal tax authorities and certain state tax authorities. As of June 30, 2023, and during the prior three open tax years, the Funds did not have a liability for any unrecognized tax benefits. The Funds have no examinations in progress and are not aware of any tax positions for which it is

reasonably possible that the total amounts of unrecognized tax benefits will significantly change in the next twelve months.

(h) Distributions to Shareholders

The Funds will make distributions of net investment income per the table below and net capital gains, if any, at least annually. Distributions to shareholders are recorded on the ex-dividend date. The amount and timing of distributions are determined in accordance with federal income tax regulations, which may differ from GAAP.

	Distribution Frequency of
	Net Investment Income
Dynamic Opportunity Fund	Annually
Tactical Income Fund	Monthly

The character of distributions made during the year from net investment income or net realized gains may differ from the characterization for federal income tax purposes due to differences in the recognition of income, expense and gain (loss) items for financial statement and tax purposes.

(i) Illiquid Securities

Pursuant to Rule 22e-4 under the 1940 Act, the Funds have adopted a Liquidity Risk Management Program ("LRMP") that requires, among other things, that the Funds limit their illiquid investments that are assets to no more than 15% of net assets. An illiquid investment is any security which may not reasonably be expected to be sold or disposed of in current market conditions in seven calendar days or less without the sale or disposition significantly changing the market value of the investment. If the Advisor, at any time, determines that the value of illiquid securities held by the Funds exceed 15% of its net asset value, the Advisor will take such steps as it considers appropriate to reduce them as soon as reasonably practicable in accordance with the Funds' written LRMP.

Note 3 – Investment Advisory and Other Agreements

The Trust, on behalf of the Funds, entered into an Investment Advisory Agreement (the "Agreement") with AXS Investments LLC (the "Advisor"). Under the terms of the Agreement, the Funds pay twice a month investment advisory fee to the Advisor. The annual rates are listed by Fund in the table below:

	Investment
	Advisory
	Fees
Dynamic Opportunity Fund	1.25%
Tactical Income Fund	1.00%

The Advisor has contractually agreed to waive its fee and, if necessary, to absorb other operating expenses of the Funds to ensure that total annual operating expenses (excluding any taxes, leverage interest, brokerage commissions, dividend and interest expenses on short sales, acquired fund fees and expenses (as determined in accordance with Form N-1A), professional fees related to services for the collection of foreign tax reclaims, expenses incurred in connection with any merger or reorganization, and extraordinary expenses such as litigation expenses) in order to limit total annual operating expenses of each fund.

These agreements are in effect until May 12, 2025 for the Funds and they may be terminated before that date only by the Trust's Board of Trustees. The table below contains the expense cap by Fund and by Class:

	Total Limit	Total Limit on Annual				
	Operating	g Expenses				
	Class A Shares	Class I Shares				
Dynamic Opportunity Fund	2.40%	2.15%				
Tactical Income Fund	2.25%	2.00%				

The Advisor is permitted to seek reimbursement from each Fund, subject to certain limitations, of fees waived or payments made to each Fund for a period ending three full years after the date of the waiver or payment. This reimbursement may be requested from each Fund if the reimbursement will not cause each Fund's annual expense ratio to exceed the lesser of (a) the expense limitation amount in effect at the time such fees were waived or payments made, or (b) the expense limitation amount in effect at the time of the reimbursement.

Prior to the close of business on May 12, 2023, investment advisory services were provided to the AXS Dynamic Opportunity Predecessor Fund and AXS Tactical Income Predecessor Fund by Ascendant Capital Management, LLC ("Ascendant") for the period January 1, 2023 through May 12, 2023, which received investment management fees for their services pursuant to the terms of the investment advisory agreements for the AXS Dynamic Opportunity Predecessor Fund and the AXS Tactical Income Predecessor Fund. The investment advisory fees were computed and accrued daily and paid monthly at an annual rate of 1.25% of the AXS Dynamic Opportunity Predecessor Fund's average daily net assets and 1.00% of the AXS Tactical Income Predecessor Fund's average daily net assets. Ascendant had contractually agreed to waive its fee and, if necessary, to absorb other operating expenses to ensure that total annual operating expenses (excluding any taxes, leverage interest, brokerage commissions, dividend and interest expenses on short sales, acquired fund fees and expenses as determined in accordance with Form N-1A, expenses incurred in connection with any merger or reorganization, and extraordinary expenses such as litigation expenses) do not exceed 2.40% and 2.15% of the average daily net assets of Class A shares and Class I shares, respectively, of the AXS Dynamic Opportunity Predecessor Fund and do not exceed 2.25% and 2.00% of the average daily net assets of Class A shares and Class I shares, respectively, of the AXS Tactical Income Predecessor Fund.

UMB Fund Services, Inc. ("UMBFS") serves as the Funds' fund accountant, transfer agent and co-administrator; and Mutual Fund Administration, LLC ("MFAC") serves as the Funds' other co-administrator. UMB Bank, N.A., an affiliate of UMBFS, serves as the Funds' custodian. The Funds' allocated fees incurred for fund accounting, fund administration, transfer agency and custody services for the six months ended June 30, 2023, are reported on the Statements of Operations. For the period May 13, 2023 to June 30, 2023, the Dynamic Opportunity Fund and Tactical Income Fund paid UMBFS \$11,892 and \$9,701 and UMB Bank, N.A. \$1,289 and \$1,040, respectively.

Prior to the close of business on May 12, 2023, Ultimus Fund Solutions, LLC ("UFS") served as the administrator, fund accountant, and transfer agent to the Funds' Predecessor Funds and US Bancorp Investments, Inc. served as the Funds' Predecessor Funds Custodian. For the period January 1, 2023 to May 12, 2023, the AXS Dynamic Opportunity Predecessor Fund and AXS Tactical Income Predecessor Fund paid UFS \$65,599 and \$47,688 and US Bancorp Investments, Inc. \$3,798 and \$3,212, respectively.

ALPS Distributors, Inc. serves as the Funds' Distributor (the "Distributor"). The Distributor does not receive compensation from the Funds for its distribution services; the Advisor pays the Distributor a fee for its distribution related services. Prior to the close of business on May 12, 2023, Northern Lights Distributors, LLC served as distributor to the Funds' Predecessor Funds.

Certain trustees and officers of the Trust are employees of UMBFS or MFAC. The Funds do not compensate trustees and officers affiliated with the Funds' co-administrators. For the six months ended June 30, 2023, the Funds' allocated fees incurred to Trustees who are not affiliated with the Funds' co-administrators are reported on the Statements of Operations.

For the period May 13, 2023 to June 30, 2023, the Dynamic Opportunity Fund and Tactical Income Fund paid their Trustees who are not affiliated with the Funds \$2,718 and \$2,802 respectively. For the period January 1, 2023 to May 12, 2023, the AXS Dynamic Opportunity Predecessor Fund and AXS Tactical Income Predecessor Fund paid its Trustees who are not affiliated with the Funds \$5,244 and \$5,235, respectively.

The Funds' Board of Trustees has adopted a Deferred Compensation Plan (the "Plan") for the Independent Trustees that enables Trustees to elect to receive payment in cash or the option to select various fund(s) in the Trust in which their deferred accounts shall be deemed to be invested. If a trustee elects to defer payment, the Plan provides for the creation of a deferred payment account. The Funds' liability for these amounts is adjusted for market value changes in the invested fund and remains a liability to the Funds until distributed in accordance with the Plan. The Trustees' Deferred compensation liability under the Plan constitutes a general unsecured obligation of the Funds and is disclosed in the Statements of Assets and Liabilities. Contributions made under the plan and the change in unrealized appreciation (depreciation) and income are included in the Trustees' fees and expenses in the Statements of Operations.

Dziura Compliance Consulting, LLC provides Chief Compliance Officer ("CCO") services to the Trust. For the period May 13, 2023 to June 30, 2023, the Dynamic Opportunity Fund and Tactical Income Fund paid the CCO \$1,256 and \$806, respectively. Prior to the close of business on May 12, 2023, Northern Lights Compliance Services, LLC ("NLCS") served as the CCO to the Funds' Predecessor Funds. For the period January 1, 2023 to May 12, 2022, the AXS Dynamic Opportunity Predecessor Fund and AXS Tactical Income Predecessor Fund paid the CCO \$6,324 and \$4,980, respectively. The Funds' allocated fees incurred for CCO services for the six months ended June 30, 2023, are reported on the Statements of Operations.

Note 4 - Federal Income Taxes

At June 30, 2023, gross unrealized appreciation (depreciation) of investments based on cost for federal income tax purposes were as follows:

	Dyna	amic Opportunity Fund	Ta	actical Income Fund
Cost of investments	\$	48,453,135	\$	43,226,340
Gross unrealized appreciation	\$	9,450,642	\$	346,235
Gross unrealized depreciation		(731,383)		(960,677)
Net unrealized appreciation				
(depreciation) on investments	\$	8,719,259	\$	(614,442)

The difference between cost amounts for financial statement and federal income tax purposes is due primarily to timing differences in recognizing certain gains and losses in security transactions.

The tax basis of the components of distributable net earnings (accumulated deficit) at December 31, 2022 were as follows:

	Dynamic Opportu	Dynamic Opportunity Fund		
Undistributed ordinary income Undistributed long-term capital gains	\$	- \$ -	-	
Tax accumulated earnings		-	-	
Accumulated capital and other losses Unrealized appreciation		(847,448)	(6,188,778)	
(depreciation) on investments		3,880,874	(1,115,022)	
Total accumulated earnings (deficit)	\$	3,033,426 \$	(7,303,800)	

The tax character of the distributions paid during the years ended December 31, 2022 and December 31, 2021 were as follows:

	Dynamic Opportunity Fund						
Distributions paid from:	Decembe	er 31, 2022	December	r 31, 2021			
Ordinary income	\$	-	\$	-			
Net long-term capital gains		4,898,230		2,463,974			
Return of capital		-		15,510			
Total distributions paid	\$	4,898,230	\$	2,479,484			
				_			
	Tactical Income Fund						
	Decembe	er 31, 2022	December 31, 2021				
Distributions paid from:							
Ordinary income	\$	1,275,175	\$	2,043,660			
Net long-term capital gains		-		-			
Exempt Income		-		172,599			
Return of capital		-		14,908			
Total distributions paid	\$	1,275,175	\$	2,231,167			

As of December 31, 2022, the Dynamic Opportunity Fund had post-October capital losses, which are deferred until fiscal year 2023 for tax purposes. Capital losses incurred after October 31, and within the year are deemed to arise on the first day of the Fund's next taxable year.

Post-Oct	ober Capital Losses
\$	553,463

As of December 31, 2022, the Tactical Income Fund had net capital loss carryovers as follows:

Short-term	\$ 6,188,728
Long-term	 -
Total	\$ 6,188,728

Note 5 – Redemption Fee

The Funds may impose a redemption fee of 1.00% of the total redemption amount on all shares redeemed within 30 days of purchase. The Funds received redemption fees as follows:

	Six I	Months Ended	Yea	r Ended
	Ju	June 30, 2023		oer 31, 2022
Dynamic Opportunity Fund	\$	4,441	\$	291
Tactical Income Fund		2,133		105

Note 6 – Investment Transactions

For the six months ended June 30, 2023, cost of purchases and proceeds from sales of portfolio securities, other than short-term investments, option transactions and short-term U.S. Government securities were as follows:

			oceeds from ecurities Sold	Cover Short
	 Purchases	Sales	Short	Securities
Dynamic Opportunity Fund	\$ 136,417,132	\$ 124,003,321	\$ 28,297,525	\$ 42,439,673
Tactical Income Fund	166,590,654	147,279,243	674,229	675,541

Note 7 – Shareholder Servicing Plan

For the period January 1, 2023 through May 12, 2023, the Predecessor Funds had a Shareholder Servicing Plan for the Funds' Class A shares to pay for shareholder services. The Plan provided a monthly service fee at an annual rate of 0.25% of the average daily net assets and paid to the Distributor for shareholder servicing activities.

For the period January 1, 2023 through May 12, 2023, shareholder servicing fees incurred are disclosed on the Statements of Operations.

Note 8 – Distribution Plan

The Trust, on behalf of each Fund, has adopted a Distribution Plan (the "Plan") pursuant to Rule 12b-1 under the 1940 Act that allows each Fund to pay distribution fees for the sale and distribution of its shares. With respect to Class A shares, the Plan provides for the payment of distribution fees at the annual rate of up to 0.25% of average daily net assets.

For the six months ended June 30, 2023, distribution fees incurred are disclosed on the Statements of Operations.

Note 9 – Indemnifications

In the normal course of business, the Funds enter into contracts that contain a variety of representations, which provide general indemnifications. The Funds' maximum exposure under these arrangements is unknown, as this would involve future claims that may be made against the Funds that have not yet occurred. However, the Funds expect the risk of loss to be remote.

Note 10 - Fair Value Measurements and Disclosure

Fair Value Measurements and Disclosures defines fair value, establishes a framework for measuring fair value in accordance with GAAP, and expands disclosure about fair value measurements. It also provides guidance on determining when there has been a significant decrease in the volume and level of activity for an asset or a liability, when a transaction is not orderly, and how that information must be incorporated into a fair value measurement.

Under Fair Value Measurements and Disclosures, various inputs are used in determining the value of the Funds' investments. These inputs are summarized into three broad Levels as described below:

- Level 1 Unadjusted quoted prices in active markets for identical assets or liabilities that the Funds have the ability to access.
- Level 2 Observable inputs other than quoted prices included in level 1 that are observable for the asset or liability, either directly or indirectly. These inputs may include quoted prices for the identical instrument on an inactive market, prices for similar instruments, interest rates, prepayment speeds, credit risk, yield curves, default rates and similar data.
- Level 3 Unobservable inputs for the asset or liability, to the extent relevant observable inputs are not available; representing the Funds' own assumptions about the assumptions a market participant would use in valuing the asset or liability and would be based on the best information available.

The availability of observable inputs can vary from security to security and is affected by a wide variety of factors, including, for example, the type of security, whether the security is new and not yet established in the marketplace, the liquidity of markets, and other characteristics particular to the security. To the extent that valuation is based on models or inputs that are less observable or unobservable in the market, the determination of fair value requires more judgment. Accordingly, the degree of judgment exercised in determining fair value is greatest for instruments categorized in Level 3.

The inputs used to measure fair value may fall into different Levels of the fair value hierarchy. In such cases, for disclosure purposes, the Level in the fair value hierarchy within which the fair value measurement falls in its entirety, is determined based on the lowest Level input that is significant to the fair value measurement in its entirety.

The inputs or methodology used for valuing securities are not an indication of the risk associated with investing in those securities. The following is a summary of the inputs used, as of June 30, 2023, in valuing the Funds' assets and liabilities carried at fair value:

Dynamic Opportunity Fund	Level 1	Level 2	Level 3*		Total
Assets					
Investments					
Common Stocks ¹	\$ 37,967,259	\$ -	\$	-	\$ 37,967,259

Note 11 – Derivatives and Hedging Disclosures

Short-Term Investments

Total Investments

Derivatives and Hedging requires enhanced disclosures about the Fund's derivative and hedging activities, including how such activities are accounted for and their effects on the Fund's financial position and performance. The Dynamic Opportunity Fund invested in options during the six months ended June 30, 2023.

The effects of these derivative instruments on the Fund's financial position and financial performance as reflected in the Statement of Assets and Liabilities and Statement of Operations are presented in the tables below. The fair values of derivative instruments, as of June 30, 2023, by risk category are as follows:

	Dynamic O _l	pport	unity Fund			
	Asset Deri	vativ	es	Liability De	rivati	ves
	Statements of			Statements of		
Derivatives not designated as	Assets and			Assets		
hedging instruments	Liabilities		Value	and Liabilities		Value
	Purchased options			Written options		
Equity contracts	contracts, at value	\$	485,125	contracts, at value	\$	48,100

¹For a detailed break-out by major industry classification, please refer to the Schedules of Investments.

^{*}The Dynamic Opportunity Fund did not hold any Level 3 securities at period end.

^{**}The Tactical Income Fund did not hold any Level 2 or 3 securities at period end.

The effects of derivative instruments on the Statements of Operations for the six months ended June 30, 2023, are as follows:

Dynamic Opportunity Fund							
Amount of Realized Gain or (Loss) on Derivatives Recognized in the Statements of Operations							
Purchased Options Written Options							
Derivatives not designated as hedging instruments	ents Contracts Contracts						
Equity contracts	\$	(2,704,138)	\$	(385,504)

The average quarterly volume of derivative instruments held by the Fund during the six months ended June 30, 2023, is as follows:

Dynamic Opportunity Fund						
		Pu	Purchased Options		Written Options	
			Contracts		Contracts	
Equity contra	acts Notional Value	e \$	48,996,017	\$	(2,253,232)	

Note 12 - Market Disruption and Geopolitical Risks

Certain local, regional or global events such as war, acts of terrorism, the spread of infectious illness or other public health issues, or other events could have a significant impact on a security or instrument. Since 2020, the novel strain of coronavirus (COVID-19) has negatively affected the worldwide economy, as well as the economies of individual countries, the financial health of individual companies and the market in general in significant and unforeseen ways. Following Russia's large-scale invasion of Ukraine, the President of the United States signed an Executive Order in February 2022 prohibiting U.S. persons from entering transactions with the Central Bank of Russia and Executive Orders in March 2022 prohibiting U.S. persons from importing oil and gas from Russia as well as other popular Russian exports, such as diamonds, seafood and vodka. There may also be restrictions on investments in Chinese companies. For example, the President of the United States of America signed an Executive Order in June 2021 affirming and expanding the U.S. policy prohibiting U.S. persons from purchasing or investing in publicly-traded securities of companies identified by the U.S. Government as "Chinese Military-Industrial Complex Companies." The list of such companies can change from time to time, and as a result of forced selling or an inability to participate in an investment the Advisor otherwise believes is attractive, the Fund may incur losses. The duration of the coronavirus outbreak and the Russian-Ukraine conflict could adversely affect the Fund's performance, the performance of the securities in which the Fund invests and may lead to losses on your investment. The ultimate

impact of COVID-19 and Russia Invasion on the financial performance of the Fund's investments is not reasonably estimable at this time. Management is actively monitoring these events.

Note 13 – New Accounting Pronouncements and Regulatory Updates

Effective January 24, 2023, the SEC adopted rule and form amendments to require mutual funds and exchange-traded funds (ETFs) to transmit concise and visually engaging streamlined annual and semiannual reports to shareholders that highlight key information deemed important for retail investors to assess and monitor their fund investments. Other information, including financial statements, will no longer appear in the funds' streamlined shareholder reports but must be available online, delivered free of charge upon request, and filed on a semiannual basis on Form N-CSR. The rule and form amendments have a compliance date of July 24, 2024. At this time, management is evaluating the impact of these rule and form amendment changes on the content of the current shareholder report and the newly created annual and semiannual streamlined shareholder reports.

In October 2020, the SEC adopted new regulations governing the use of derivatives by registered investment companies ("Rule 18f-4"). Rule 18f-4 will impose limits on the amount of derivatives a Fund can enter into, eliminate the asset segregation framework currently used by funds to comply with Section 18 of the 1940 Act, and require funds whose use of derivatives is greater than a limited specified amount to establish and maintain a comprehensive derivatives risk management program and appoint a derivatives risk manager. The Funds have adopted procedures in accordance with Rule 18f-4.

In December 2020, the SEC adopted a new rule providing a framework for fund valuation practices ("Rule 2a-5"). Rule 2a-5 establishes requirements for determining fair value in good faith for purposes of the 1940 Act. Rule 2a-5 will permit fund boards to designate certain parties to perform fair value determinations, subject to board oversight and certain other conditions. Rule 2a-5 also defines when market quotations are "readily available" for purposes of the 1940 Act and the threshold for determining whether a fund must fair value a security. In connection with Rule 2a-5, the SEC also adopted related recordkeeping requirements and is rescinding previously issued guidance, including with respect to the role of a board in determining fair value and the accounting and auditing of fund investments. The Funds have adopted procedures in accordance with Rule 2a-5.

In March 2020, FASB issued ASU 2020-04, Reference Rate Reform: Facilitation of the Effects of Reference Rate Reform on Financial Reporting. The main objective of the new guidance is to provide relief to companies that will be impacted by the expected change in benchmark interest rates at the end of 2021, when participating banks will no longer be required to submit London Interbank Offered Rate ("LIBOR") quotes by the UK Financial Conduct Authority. The new guidance allows companies to, provided the only change to existing contracts are a change to an approved benchmark interest rate, account for modifications as a continuance of the existing contract without additional analysis. In addition, derivative contracts that qualified for hedge accounting prior to modification, will be allowed to continue to receive such treatment, even if critical terms change due to a change in the benchmark interest rate. For new and existing contracts, the Funds may elect to apply the amendments as of March 12, 2020 through December 31, 2022. Management is currently assessing the impact of the ASU's adoption to the Funds' financial statements and various filings.

Note 14 – Events Subsequent to the Fiscal Period End

The Funds have adopted financial reporting rules regarding subsequent events which require an entity to recognize in the financial statements the effects of all subsequent events that provide additional evidence about conditions that existed at the date of the balance sheet. Management has evaluated the Funds' related events and transactions that occurred through the date of issuance of the Funds' financial statements.

Effective July 1, 2023, the Funds have changed the fiscal year end to September 30.

There were no other events or transactions that occurred during this period that materially impacted the amounts or disclosures in the Funds' financial statements.

SUPPLEMENTAL INFORMATION (Unaudited)

Board Consideration of Investment Advisory and Sub-Advisory Agreements

At an in-person meeting held on January 18-19, 2023, the Board of Trustees (the "Board") of Investment Managers Series Trust II (the "Trust"), including the trustees who are not "interested persons" of the Trust (the "Independent Trustees") as defined in the Investment Company Act of 1940, as amended (the "1940 Act"), reviewed and unanimously approved the investment advisory agreement (the "Advisory Agreement") between the Trust and AXS Investments LLC (the "Investment Advisor") with respect to the AXS Dynamic Opportunity Fund (the "Dynamic Opportunity Fund") and the AXS Tactical Income Fund (the "Tactical Income Fund" and together with the Dynamic Opportunity Fund, the "Funds") series of the Trust for an initial two-year term. In approving the Advisory Agreement, the Board, including the Independent Trustees, determined that such approval was in the best interests of each Fund and its shareholders.

Background

In advance of the meeting, the Board received information about the Funds and the Advisory Agreement from the Investment Advisor and from Mutual Fund Administration, LLC and UMB Fund Services, Inc., the Trust's coadministrators, certain portions of which are discussed below. The materials, among other things, included information about the Investment Advisor's organization and financial condition; information regarding the background, experience, and compensation structure of relevant personnel who would be providing services to the Funds; information about the Investment Advisor's compliance policies and procedures, disaster recovery and contingency planning, and policies with respect to portfolio execution and trading; information regarding the estimated profitability of the Investment Advisor's overall relationship with the Funds; information regarding the performance of the ACM Dynamic Opportunity Fund (the "Dynamic Opportunity Predecessor Fund") and ACM Tactical Income Fund (the "Tactical Income Predecessor Fund" and together with the Dynamic Opportunity Predecessor Fund, the "Predecessor Funds"), each of which would be reorganized into a new series of the Trust, for various periods ended October 31, 2022; and reports prepared by Broadridge Financial Solutions, Inc. ("Broadridge") comparing the proposed advisory fee and estimated total expenses of each Fund with those of a group of comparable funds selected by Broadridge (each a "Peer Group") from Morningstar, Inc.'s relevant fund universe (each a "Fund Universe"). The Board also received a memorandum from legal counsel to the Trust and the Independent Trustees discussing the legal standards under the 1940 Act and other applicable law for their consideration of the proposed approval of the Advisory Agreement. In addition, the Board considered information reviewed by the Board regarding the other series of the Trust managed by the Investment Advisor during the year at other Board and Board committee meetings. No representatives of the Investment Advisor were present during the Board's consideration of the Advisory Agreement, and the Independent Trustees were represented by their legal counsel with respect to the matters considered.

In approving the Advisory Agreement, the Board and the Independent Trustees considered a variety of factors, including those discussed below. In their deliberations, the Board and the Independent Trustees did not identify any particular factor that was controlling, and each Trustee may have attributed different weights to the various factors.

Nature, Extent, and Quality of Services

With respect to the relevant performance information, the meeting materials indicated the following:

• The Dynamic Opportunity Predecessor Fund's annualized total return for the three-year period was above the Peer Group and Long-Short Equity Fund Universe median returns, but below the S&P 500 Total Return Index return by 5.12%. The Predecessor Fund's total return for the one-year period was above the S&P 500 Total Return Index return, but below the Peer Group and Fund Universe median returns by 1.59% and 9.27%, respectively. The Predecessor Fund's annualized total return for the five-year period was below the Fund Universe and Peer Group median returns and the S&P 500 Total Return Index return by 0.52%, 0.71%, and 7.74%, respectively. The Trustees observed that the Predecessor Fund's volatility of returns, as measured by its standard deviation, and its downside volatility, as measured by its Morningstar risk score, ranked it in the first quartile of the funds (which is the most favorable) in the Peer Group and Fund Universe for the one-, three-, and five-year periods.

SUPPLEMENTAL INFORMATION (Unaudited) - Continued

• The Tactical Income Predecessor Fund's annualized total return for the three-year period was above the Bloomberg U.S. Aggregate Bond Total Return Index return and the Peer Group and Nontraditional Bond Fund Universe median returns. The Predecessor Fund's total return for the one-year period was above the Bloomberg U.S. Aggregate Bond Total Return Index return, but below the Fund Universe and Peer Group median returns by 1.06% and 1.40%, respectively. The Trustees observed that the Predecessor Fund's volatility of returns, as measured by its standard deviation, and its downside volatility, as measured by its Morningstar risk score, ranked it in the first quartile of the funds (which is the most favorable) in the Peer Group and Fund Universe for the one- and three-year periods.

The Board noted its familiarity with the Investment Advisor as the investment advisor for numerous other series of the Trust, and considered the services to be provided by the Investment Advisor to each Fund. In doing so, the Board considered the Investment Advisor's specific responsibilities in day-to-day management and oversight of the Funds, as well as the qualifications, experience, and responsibilities of the personnel who would be involved in the activities of the Funds. The Board also considered the overall quality of the organization and operations of the Investment Advisor, as well as its compliance structure and compliance procedures.

The Board and the Independent Trustees concluded that based on the various factors they had reviewed, the Investment Advisor would have the capabilities, resources, and personnel necessary to manage each Fund, and that the Investment Advisor would provide each Fund with a reasonable potential for good investment results.

Advisory Fees and Expense Ratios

The Board reviewed information regarding each Fund's proposed advisory fee and estimated total expenses. The meeting materials indicated the following:

• The Dynamic Opportunity Fund's proposed annual investment advisory fee (gross of fee waivers) of 1.25% was the same as the advisory fee for the Dynamic Opportunity Predecessor Fund and the Long-Short Equity Fund Universe median, but slightly higher than the Peer Group median by 0.025%. The Trustees considered that the Investment Advisor does not manage any other accounts with the same objectives and policies as the Fund, and therefore they did not have a good basis for comparing the Fund's proposed advisory fee with those of other similar client accounts of the Investment Advisor. The Trustees also noted that the Fund's proposed advisory fee was within the range of advisory fees paid by other series of the Trust managed by the Investment Advisor.

The Dynamic Opportunity Fund's estimated annual total expenses (net of fee waivers) of 2.15% were the same as the annual total expenses (net of fee waives) of the Dynamic Opportunity Predecessor Fund, but higher than the Fund Universe and Peer Group medians by 0.66% and 0.76%, respectively. The Trustees considered the Investment Advisor's observation that some of the funds in the Peer Group are part of larger fund complexes and therefore could have lower expenses and/or support lower expense caps. The Trustees noted the Investment Advisor's assertion that the larger fund complexes allow those funds in the Peer Groups to pass along economies of scale that the Investment Advisor is currently unable to match. The Board also considered that the Investment Advisor represented that the net expense ratio for the Fund was at a level at which the Investment Advisor could maintain the viability of the Fund.

• The Tactical Income Fund's proposed annual investment advisory fee (gross of fee waivers) of 1.00% was the same as the advisory fee for the Tactical Income Predecessor Fund and the Peer Group median, but higher than the Nontraditional Bond Fund Universe median by 0.365%. The Trustees considered that the Investment Advisor does not manage any other accounts with the same objectives and policies as the Fund, and therefore they did not have a good basis for comparing the Fund's proposed advisory fee with those of other similar client accounts of the Investment Advisor. The Board also noted that the Fund's proposed advisory fee was within the range of advisory fees paid by other series of the Trust managed by the Investment Advisor.

SUPPLEMENTAL INFORMATION (Unaudited) - Continued

The Tactical Income Fund's estimated annual total expenses (net of fee waivers) of 2.00% were the same as the annual total expenses (net of fee waivers) of the Tactical Income Predecessor Fund, but higher than the Peer Group and Fund Universe medians by 0.61% and 1.25%, respectively. The Trustees observed, however, that the average net assets of the Predecessor Fund's class considered by Broadridge were significantly lower than the average net assets of corresponding classes of funds in the Fund Universe, and that certain of those other funds also had significant assets in other classes. The Trustees considered the Investment Advisor's observation that some of the funds in the Peer Group are part of larger fund complexes and therefore could have lower expenses and/or support lower expense caps. The Trustees noted the Investment Advisor's assertion that the larger fund complexes allow those funds in the Peer Group to pass along economies of scale that the Investment Advisor is currently unable to match. The Board also considered that the Investment Advisor represented that the net expense ratio for the Fund was at a level at which the Investment Advisor could maintain the viability of the Fund.

The Board and the Independent Trustees concluded that the proposed compensation payable to the Investment Advisor under the Advisory Agreement would be fair and reasonable in light of the nature and quality of the services proposed to be provided by the Investment Advisor to each Fund.

Profitability, Benefits to the Investment Advisor, and Economies of Scale

The Board next reviewed the estimated profitability to the Investment Advisor of its relationship with each Fund in the Fund's first year of operations, taking into account each Predecessor Fund's current assets. The Board determined that the Investment Advisor's anticipated profit levels with respect to the Dynamic Opportunity Fund and Tactical Income Fund were reasonable.

The Board noted that the potential benefits received by the Investment Advisor as a result of its relationships with the Funds, other than the receipt of its advisory fees, would include the usual types of "fall out" benefits received by advisors to the Trust, including any research received from broker-dealers providing execution services to the Funds, the beneficial effects from the review by the Trust's Chief Compliance Officer of the Investment Advisor's compliance program, the intangible benefits of its association with the Funds generally, and any favorable publicity arising in connection with the Funds' performance. The Board also noted that although the Advisory Agreement does not provide for any advisory fee breakpoints, the Funds' asset levels would likely be too low to achieve significant economies of scale following the reorganizations, and that any such economies would be considered in the future as the Funds' assets grow.

Conclusion

Based on these and other factors, the Board and the Independent Trustees concluded that approval of the Advisory Agreement was in the best interests of each Fund and its shareholders and, accordingly, approved the Advisory Agreement with respect to each Fund.

AXS Funds EXPENSE EXAMPLES

For the Six Months Ended June 30, 2023 (Unaudited)

Expense Examples

As a shareholder of the Funds, you incur two types of costs: (1) transaction costs; and (2) ongoing costs, including management fees; distribution and/or 12b-1 fees (Class A shares only) and other Fund expenses. The examples below are intended to help you understand your ongoing costs (in dollars) of investing in the Funds and to compare these costs with the ongoing costs of investing in other mutual funds.

These examples are based on an investment of \$1,000 invested at the beginning of the period and held for the entire period from January 1, 2023 to June 30, 2023.

Actual Expenses

The information in the row titled "Actual Performance" of the table below provides actual account values and actual expenses. You may use the information in these columns, together with the amount you invested, to estimate the expenses that you paid over the period. Simply divide your account value by \$1,000 (for example, an \$8,600 account value divided by \$1,000 = 8.6), then multiply the result by the number in the appropriate row for your share class, under the column titled "Expenses Paid During Period" to estimate the expenses you paid on your account during this period.

Hypothetical Example for Comparison Purposes

The information in the row titled "Hypothetical (5% annual return before expenses)" of the table below provides hypothetical account values and hypothetical expenses based on the Fund's actual expense ratios and an assumed rate of return of 5% per year before expenses, which is not the Fund's actual return. The hypothetical account values and expenses may not be used to estimate the actual ending account balance or expenses you paid for the period. You may use this information to compare the ongoing costs of investing in the Fund and other funds. To do so, compare these 5% hypothetical examples with the 5% hypothetical examples that appear in the shareholder reports of the other funds.

Please note that the expenses shown in the table are meant to highlight your ongoing costs only and do not reflect any transaction costs, such as sales charges (load) or contingent deferred sales charges. Therefore, the information in the row titled "Hypothetical (5% annual return before expenses)" is useful in comparing ongoing costs only and will not help you determine the relative total costs of owning different funds. In addition, if these transactional costs were included, your costs would have been higher.

Dynamic Opportunity Fund		Beginning Account Value	Ending Account Value	Expenses Paid During Period*
		1/1/23	6/30/23	1/1/23 - 6/30/23
Class A	Actual Performance	\$ 1,000.00	\$ 1,025.30	\$ 10.71
	Hypothetical (5% annual return before expenses)	1,000.00	1,014.22	10.65
Class I	Actual Performance	1,000.00	1,026.70	9.47
	Hypothetical (5% annual			
	return before expenses)	1,000.00	1,015.50	9.42

^{*} Expenses are equal to the Fund's annualized expense ratios of 2.13% and 1.88% for Class A shares and Class I shares, respectively, multiplied by the average account values over the period, multiplied by 181/365 (to reflect the six-month period). Assumes all dividends and distributions were reinvested.

Privacy Principles of the AXS Funds for Shareholders

The Funds are committed to maintaining the privacy of their shareholders and to safeguarding their non-public personal information. The following information is provided to help you understand what personal information the Funds collect, how we protect that information and why, in certain cases, we may share information with select other parties.

Generally, the Funds do not receive any non-public personal information relating to their shareholders, although certain non-public personal information of their shareholders may become available to the Funds. The Funds do not disclose any non-public personal information about their shareholders or former shareholders to anyone, except as permitted by law or as is necessary in order to service shareholder accounts (for example, to a transfer agent or third party administrator).

This report is sent to shareholders of the AXS Funds for their information. It is not a Prospectus, circular or representation intended for use in the purchase or sale of shares of the Funds or of any securities mentioned in this report.

Proxy Voting

The Funds' proxy voting policies and procedures, as well as information regarding how the Funds voted proxies for portfolio securities, if applicable, during the most recent 12-month period ended June 30, are available, without charge and upon request by calling (833) 297-2587 or on the SEC's website at www.sec.gov.

Fund Portfolio Holdings

The Funds file a complete schedule of their portfolio holdings with the SEC for the first and third quarters of each fiscal year on Form N-PORT within 60 days of the end of such fiscal quarter. Shareholders may obtain the Funds' Form N-PORT on the SEC's website at www.sec.gov.

Prior to the use of Form N-PORT, the Funds file their complete schedule of portfolio holdings with the SEC on Form N-Q, which is available online at www.sec.gov.

Householding

The Funds will mail only one copy of shareholder documents, including prospectuses notice of annual and semi-annual reports availability and proxy statements, to shareholders with multiple accounts at the same address. This practice is commonly called "householding" and is intended to reduce expenses and eliminate duplicate mailings of shareholder documents. Mailings of your shareholder documents may be householded indefinitely unless you instruct us otherwise. If you do not want the mailing of these documents to be combined with those for other members of your household, please call the Funds at (833) 297-2587.
